Background

Chapter 334 of the Acts of 2005 (SB 782) charged the Secretary of the Maryland Department of Health (the Department) to establish the Child Abuse and Neglect Centers of Excellence Initiative and to appoint and convene the Child Abuse and Neglect Expert Panel (the Expert Panel). The Expert Panel is charged with reviewing the appropriateness of Current Procedural Terminology codes and billing protocols for services related to child abuse and neglect, determining if diagnosis and treatment data could be utilized to provide statistics on the extent of child abuse and neglect in the State, and reviewing activities of the Centers of Excellence Initiative. The Expert Panel consists of representatives from the Department, the Department of Human Services, Maryland Children's Alliance, and the Maryland Chapter of the American Academy of Pediatrics' Child Maltreatment and Emergency Department Committees (Appendix A: Child Abuse and Neglect Expert Panel Members). In 2008, pursuant to Md. Ann. Code Health-General Art., §13-2201, the Child Abuse and Neglect Centers of Excellence Initiative was renamed Maryland Child Abuse Medical Providers (CHAMP).

Child maltreatment is a common and serious public health concern. According to the Maryland Department of Human Resources' Child Protective Services, in Fiscal Year (FY) 2017 there were 21,989 new cases of alleged child abuse and neglect in Maryland (Appendix B: Child Abuse and Neglect by Jurisdiction). Child maltreatment results in significant morbidity, mortality, and costs. Due to the complex nature of child abuse and neglect investigations, multidisciplinary teams comprised of medical professionals, Child Protective Services staff, law enforcement, mental health providers, forensic interviewers, and victim advocates are used to enhance and improve investigations and responses for children and families. Multidisciplinary teams staff child advocacy centers, which are child-friendly facilities where children and families engaged in child abuse investigations can access services (Appendix C: Map of Maryland Child Advocacy Centers). The CHAMP program was developed to provide expert consultation and training to local and regional multidisciplinary teams in the diagnosis and treatment of child physical abuse, sexual abuse, and neglect.

During FY 2017 the Department's Maternal and Child Health Bureau (MCHB) administered the CHAMP program through staff support of five CHAMP faculty members contracted to provide ongoing training, consultation, and peer review to local providers. This report covers the FY 2017 activities of the CHAMP program.

CHAMP Activities

Beginning July 1, 2016, the CHAMP program was administered by the MCHB through individual contracts with University of Maryland School of Medicine, Johns Hopkins University, Frederick Memorial Hospital, Medstar Franklin Square Medical Center, Chesapeake Health Education Program Inc., and XIFIN Inc. In FY 2017, the CHAMP program maintained a faculty of six child abuse medical experts, and the faculty met quarterly to discuss future trainings and topics, recruitment of a network provider for Prince George's County, and increasing prevention efforts of child maltreatment. The CHAMP faculty provided training and support in the diagnosis and treatment of child maltreatment to local health care providers, and expert consultation to State agencies involved in child abuse and neglect investigations, such as Child Protective Services and law enforcement.

In FY 2017, CHAMP held three half-day provider trainings to review a variety of child maltreatment topics. These trainings included topics such as "Best Practices for Serving LGBTQ Youth," "Child Death Review," and "Addressing Child Sexual Abuse: A Public Health Perspective." Each training also included a case review session. The case review session is led by a faculty member and is an opportunity for providers to review and discuss cases. The case review session is particularly helpful for those who practice in low-volume jurisdictions and may not have opportunities to assess less common findings in a clinical setting.

In addition to the three training sessions, CHAMP faculty members Dr. Scott Krugman, Dr. Howard Dubowitz, and Dr. Leena Dev completed a series of grand rounds on child abuse topics at Frederick Memorial Hospital, Medstar Franklin Square Medical Center, Maryland Academy of Family Physicians, and Baltimore Washington Medical Center. The new program structure allowed for two pediatric forensic nurse examiner trainings, which were conducted by CHAMP faculty member, Pamela Holtzinger, RN.

During FY 2017, the CHAMP program developed monthly peer review calls for child abuse medical evaluations for local child advocacy centers, and a new physician (Monet Ouwinga, MD) was recruited to provide exams for Child Advocacy Centers in Southern Maryland.

Local CHAMP providers are able to consult with a member of the CHAMP faculty 24 hours per day, seven days per week via a secure, online, HIPAA-compliant program called ProNet (formerly known as TeleCam). Local CHAMP providers can upload case information and images to the secure website, which is accessible only to CHAMP faculty.

Future Plans

The CHAMP program will continue to be administered by the Department's MCHB in order to reduce administrative costs and increase funding for programmatic improvements. In FY 2018, MCHB will extend individual contracts with five CHAMP faculty members providing ongoing training and consultation services. For a description of contracts and services, see Appendix F.

The CHAMP faculty will conduct three half-day training sessions, in October 2017, February 2018, and June 2018, in addition to a webinar in April 2018, which is Child Abuse Prevention Month. As it has in the past, the faculty will provide consultation through ProNet.

The CHAMP program will maintain its recruitment efforts throughout the State with support from MCHB staff. The CHAMP program will also continue to explore opportunities for child maltreatment prevention efforts.

Appendix D

CHAMP Faculty and Network Provider Guidelines

CHAMP Faculty and Membership Requirements

CHAMP Faculty Credentials

CHAMP faculty pediatricians shall:

- Be licensed to practice medicine in Maryland;
- Be board certified in child abuse pediatrics;
- Have at least five years of experience conducting child abuse evaluations; and
- Be currently active in child abuse medical evaluations in Maryland.

CHAMP faculty nurses shall:

- Be licensed as a registered nurse in Maryland;
- Be certified as a nurse practitioner or Registered Nurse - Forensic Nurse Examiner (RN-FNE) in Maryland;
- Have at least five years of experience conducting child abuse medical evaluations; and
- Be currently active in child abuse medical evaluations in Maryland.

Maintenance of CHAMP Faculty Designation: :

In order to maintain faculty designation, CHAMP faculty shall:

- Present on child abuse and neglect at 4-6 professional conferences/grand rounds throughout Maryland over the course of the contract (these trainings do not include CHAMP training sessions);
- Assist Child Advocacy Centers that are undergoing a transition period after a medical provider resigns by providing medical services or medical consultation; ;
- Assist the Department in recruitment activities;
- Participate in peer review calls, as requested; and
- Participate in quarterly CHAMP faculty meetings.

CHAMP Network Provider Requirements

CHAMP Network Provider Credentials

CHAMP Network Providers shall:

- Be physicians board certified in their respective field and licensed in the state of Maryland OR certified nurse practitioners, physician assistants, or registered Nurse - Forensic Nurse Examiner (RN-FNE) licensed to practice in the state of Maryland;
- Complete a core training curriculum developed by the CHAMP faculty, with the following exemptions:
 - Completion of the core curriculum will be waived for pediatricians that are board certified in child abuse pediatrics; and
 - Providers who have significant prior experience in providing child abuse medical evaluations will be considered by the faculty for exemption from completion of the core curriculum on a case-by-case basis;
- If new to the field, agree to have all cases seen during the first two years of CHAMP membership reviewed by CHAMP faculty. Questions regarding what constitutes “new to the field” will be resolved together with faculty, and be approached on a case-by-case basis; and
- Be currently active in child abuse medical evaluations in Maryland.

Maintenance of CHAMP Network Provider Designation

In order to maintain Network Provider designation, CHAMP Providers shall:

- Maintain required certification and licensure in Maryland;
- Evaluate at least six children under age 18 for maltreatment per year, three of which must be under age 13;
- Submit all cases with questionable findings or findings indicative of abuse to ProNet;
- Participate in eight hours of Continuing Medical Education/Continuing Education Units child maltreatment related training annually; and
- Submit required data quarterly.

Appendix E

CHAMP Faculty and Network Providers

CHAMP Faculty	County Served
Howard Dubowitz, MD, MS	Anne Arundel County
Mitchell Goldstein, MD, MBA	*Johns Hopkins Children's Center
Pamela Holtzinger, RN, FNE-A/P	Frederick County
Scott Krugman, MD, MS	*Medstar Franklin Square Medical Center
Wendy Lane, MD, MPH	Howard County
Evelyn Shukat, MD	Montgomery County

CHAMP Network Providers	County Served
Steven Breslow, MD	Cecil County
Michelle Chudow, MD	Baltimore County
Paul Lomonico, MD	Harford County
Monet Ouwinga, MD	Charles and Calvert counties
Karla Paylor, MD	Frederick County
Stephanie Sisler, MD	Garrett County
Fredia Wadley, MD	Talbot, Kent, Caroline, Dorchester, and Queen Anne's counties
Jennifer Wehberg, MD	Wicomico, Somerset, and Worcester counties
Debi Wolford, RN, FNE-A/P	Allegany County

Maryland Providers Not Currently Affiliated with CHAMP	County Served
Ruth Dwyer, MD	Washington County
Cynthia Roldan, MD	*Carroll Hospital Center

*Asterisk denotes providers who are affiliated with hospitals only, and do not provide services at a county child advocacy center.

Appendix F

Contracts and Services FY 2017

Child Abuse Medical Providers (CHAMP) Contracts and Services	
Vendor Name	Services
The Johns Hopkins University	This contract funds a board certified child abuse pediatrician to coordinate peer review and consultation for providers around the state who evaluate children who may have been abused. This includes coordinating monthly peer review calls and maintaining/troubleshooting the ProNet consultation system.
Chesapeake Health Education Program Inc.	This contract covers CME accreditation for up to 19 hours of child abuse medical training.
Frederick Memorial Hospital	This contract funds a consultant to facilitate four forensic nurse trainings, two adult and two pediatric. The trainings are conducted by an experienced Forensic Nurse Examiner who has completed an Adult/Pediatric Training Program aligned with requirements of the Maryland Board of Nursing.
Medstar Franklin Square Medical Center	This contract funds the development of a recruitment and transition plan for CHAMP providers. The consultant will develop a recruitment plan to find new providers in jurisdictions that do not have access to a CHAMP provider. The consultant will also provide services at child advocacy centers when necessary and assist in succession planning for providers nearing retirement.
University of Maryland Baltimore	This contract funds two board certified child abuse pediatricians to conduct four quarterly half-day CHAMP training sessions for physicians and FNEs who examine and evaluate children who may have been abused. The two pediatricians will also be responsible for teaching the 40+ hour CHAMP curriculum to providers new to this field.
Xifin Inc.	This contract funds ProNet, a secured online, HIPAA compliant system that enables CHAMP network providers to store and share clinical images with the CHAMP faculty for consultation.
